

Compliance packaging compatible with BlistAssist® technology

To help meet the evolving needs of today's busy pharmacist, Venalink offers customizable compliance packaging that is fully compatible with the BlistAssist® automated workflow solution.

Qube

- Easy fill and check, high-capacity compliance card
- Customizable cover to maximize branding opportunities
- Larger morning and night blister cavities
- Clear instructions make it easy for patients to use

BlistAssist®

EU Community Certificate of Registration No. 001453104-001
Canadian Certificate of Registration No. 169907
U.S. Patent Pending

BlistAssist® is a registered trademark of McKesson Canada Corporation

Innovative compliance packaging preparation technology that provides accuracy, traceability and security to streamline the manual filling process.

“After only one month of use, BlistAssist has increased our productivity. Blister cards are prepared more efficiently, verification is much quicker, and I can rest assured that errors are detected and corrected before the cards leave the pharmacy.”

Suzie Rousseau
Pharmacist & Owner
Proxim Suzie Rousseau, Quebec, Canada
